

JAW CRUSHER

American Pulverizer Jaw Crushers are the affordable alternative in new crushing equipment.

Features include:

- Single wall main frame of stress relieved steel
- Open back for easy maintenance
- All working parts lubricated for moisture and dirt protection
- Reversible manganese jaw dies for maximum wear life
- Large, spherical, self-aligning roller bearings
- Isolated, close running annular/labyrinth seals protect bearings from dust and water
- Removable pitman/bearing assembly for maintenance ease
- Steep pitched toggle plate for maximum horizontal pitman movement
- Hydraulic or manual shim adjustment
- Forged and heat treated oversized overhead eccentric shaft
- Heavy duty, cast steel pitman with machined barrel

- Machined pitman face for full swing jaw die support
- Smooth running flywheels with compression ring fastening arrangement
- Extra deep crushing chamber

Optional features:

- Electric motor
- Drive sheave and bushing
- V-belt drives
- Hardened steel cheek plates
